### **Transformations In American Legal History**

During his career at Harvard, Morton Horwitz changed the questions legal historians ask. The Transformation of American Law, 1780-1860 (1977) disclosed the many ways that judge-made law favored commercial and property interests and remade law to promote economic growth. The Transformation of American Law, 1870-1960 (1992) continued that project, with a focus on ideas that reshaped law as we struggled for objective and neutral legal responses to our country's crises.

Horwitz' first book, The Transformation of American Law, 1780-1860 (1977) said a lot about the relationship of law to the economy; his second, The Transformation of American Law, 1870-1960 (1992) focused on jurisprudence. So not surprisingly a lot of the essays relate to one of those broad areas (more to the latter than the former).

Most people have seen those two books as rather different -- the first interested more in economic issues and common law; the second more jurisprudence and constitutional law.
