Transformations In American Legal History

During his career at Harvard, Morton Horwitz changed the questions legal historians ask. The Transformation of American Law, 1780-1860 (1977) disclosed the many ways that judge-made law favored commercial and property interests and remade law to promote economic growth. The Transformation of American Law, 1870-1960 (1992)

continued that project, with a focus on ideas that reshaped law as we struggled for objective and neutral legal responses to our country's crises.

A lot of the essays are focused around assessments of Horwitz' work -- for instance, William Fisher's foreword talks about the continuity between questions that

Horwitz addressed in Transformation of American Law, 1780-1860 (1977) and Transformation of American Law, 1870-1960 (1992). Most people have seen those two books as rather different -- the first interested more in economic issues and common law; the second more jurisprudence and constitutional law.
