Perception And Its Objects Reprint

The history of the philosophy of perception in my view brings out a serious tension between two absolutely compelling ideas. First, the physical objects that we perceive are the very objects that are presented to us in our conscious perceptual experience. Second, those same physical objects are also mind-independent in the sense of being

object or objects, the only objects perceived – if any objects are perceived at all – are ordinary, mind-independent objects. For example, when I have a perceptual experience of the snow-covered churchyard outside my window, the only objects perceived are the churchyard, the window and so on: ordinary

What is the problem of perception - Tim Crane

Objective perception means perceiving reality, all that confronts our awareness, as it is. It is a matter of seeing things as they are, rather than seeing them from a certain point of view or position. So by objective we do not mean the scientific positivist sense, in which objective means what exists physically outside us rather than in the mind.
