This approach provides the context necessary for the clinician to understand how to manage reimbursement requirements and preferred provider contracting as health care financial policy drives these payment and contracting strategies.

eBook healthcare finance | [PDF] Download for free

Finance in the healthcare industry can be a very tricky subject. The primary role of finance in the health services is to plan for, obtain, and make use of resources to increase the productivity and value of the business (Nowicki 2007). Finance is a very important part of the health care industry. It keeps everything on track and in order so that things operate successfully.
