You would create a time series in pretty much the same way that
 you would enter data for any purpose in Excel. What makes a
 time series different than other data series is that the values
 correspond to different points in time. For example, suppose you
 wanted to track the number of students in a particular class from
 semester to semester over a number of years. Then you would
 create a time series for enrollment. Let's open a blank Excel
 spreadsheet and fill in some data!
