An uncooperative commodity: privatising water in England ...

The commodification of water refers to the process of transforming water, especially freshwater, from a public good into a tradable commodity also known as an economic good. This transformation introduces water to previously unencumbered market forces in the hope of being managed more efficiently as a resource. The commodification of water has increased significantly during the 20th century in parallel with fears over water scarcity and environmental degradation. Central to its emergence was the
