This paper analyzes a North-South trade model with offshoring and unemployment due to union wage setting. A reduction in the cost of offshoring decreases employment in the North except possibly if there is little offshoring initially. If the scale of Northern firms also falls, then each Northern agent's welfare declines. Unions have an incentive to reduce their own bargaining power by ...

A North-South Trade Model of Offshoring and Unemployment ...

In recent decades, a new kind of North-South trade has begun to emerge driven by the abundance of cheap labour in the

South. The production of many basic goods and services is being transferred from the high-wage economies of the North to the low-wage economies of the South, whilst the North is specializing in 'knowledge-intensive' activities.
