Hustle Harder, Hustle Smarter *HarperCollins*

NEW YORK TIMES BESTSELLER For the first time, Curtis "50 Cent" Jackson opens up about his amazing comeback—from tragic personal loss to thriving businessman and cable's highest-paid executive—in this unique self-help guide, his first since his

blockbuster New York Times bestseller *The 50th Law*. In his early twenties Curtis Jackson, known as 50 Cent rose to the heights of fame and power in the cutthroat music business. A decade ago the multi-platinum selling rap artist decided to pivot. His ability to adapt to change was demonstrated when he became the executive producer and star of *Power*, a high-octane, gripping crime drama centered around a drug kingpin's family. The series quickly became "appointment" television, leading to Jackson inking a four-year, \$150 million contract with the Starz network—the most lucrative deal in premium cable history. Now, in his most personal book, Jackson shakes up the self-help category with his unique, cutting-edge lessons and hard-earned advice on embracing change. Where *The 50th Law* tells readers "fear nothing and you shall succeed," *Hustle Harder, Hustle Smarter* builds on this message, combining it with Jackson's street smarts and hard-learned corporate savvy to help readers successfully achieve their own comeback—and to learn to flow with the changes that disrupt their own lives.

Knowledge of Self

A Collection of Wisdom on the Science of Everything in Life *Supreme Design Publishing*

Do you know who - and what - you are? Do you know who you're meant to be? Do you know how to find the answers to questions like these? Knowledge of Self is the result of a process of self-discovery, but few of us know where to begin when we're ready to start looking deeper. Although self-actualization is the highest of all human needs, it is said that only 5% of people ever attain this goal. In the culture of the Nation of Gods and Earths, commonly known as the Five

Percent, students are instructed that they must first learn themselves, then their worlds, and then what they must do in order to transform their world for the better. This often intense process has produced thousands of revolutionary thinkers in otherwise desperate environments, where poverty and hopelessness dominate. Until now, few mainstream publications have captured the brilliant yet practical perspectives of these luminary men and women. Knowledge of Self: A Collection of Writings on the Science of Everything in Life presents the thoughts of Five Percenters, both young and old, male and female, from all over the globe, in their own words. Through essays, poems, and even how-to articles, this anthology presents readers with an accurate portrait of what the Five Percent study and teach, as well as sound direction on how to answer timeless questions like: Who am I, and why am I here? Why is there so much injustice in the world, and what can be done about it? Who is God and where on Earth is he? How do I improve myself without losing myself? Why are people of color in the situations they're in? What can we do about the global problems of racism and poverty?

Startup Your Life

Hustle and Hack Your Way to Happiness *St. Martin's Press*

As an entrepreneur, Anna Akbari learned that one of the best things about startups is their ability to "pivot" quickly—basically a euphemism for failing and starting over. And she quickly found that personal success is no different. It's not just about developing and following the right process but also having a good idea. And that demands

rigor and daily maintenance—far beyond a few positive affirmations. Like any Silicon Valley startup, the business of life is not as glamorous as its Instagram account would make it seem. What do you do when planning is not an option? When control is out of your reach? You isolate the small stuff, experiment constantly, and use the results to lay a more sustainable foundation for the future. You validate your idealized vision by testing it out in bite-sized increments. You see what sticks, integrate, and move forward. And inevitably, you experience a series of failures along the way, but those failures are key to your next success. Living a start up life is about maximizing flexibility and measuring on-going results, not avoiding failure or reaching one particular end goal. It's about embracing defeat, analyzing it, and failing up. In *Startup Your Life*, Akbari shows that after all, it's often the stumbles that pave the way for real happiness.

The Hustle

One Team and Ten Lives in Black and White *Bloomsbury Publishing USA*

The experiment was dreamed up by two fathers, one white, one black. What would happen, they wondered, if they mixed white players from an elite Seattle private school - famous for alums such as Microsoft's Bill Gates - and black kids from the inner city on a basketball team? Wouldn't exposure to privilege give the black kids a chance at better opportunities? Wouldn't it open the eyes of the white kids to a different side of life? The 1986 season would be the laboratory. Out in the real world, hip-hop was going mainstream, Larry Bird and Magic Johnson ruled the NBA, and Ronald Reagan was president. In Seattle,

the team's season unfolded like a perfectly scripted sports movie: the ragtag group of boys became friends and gelled together to win the league championship. The experiment was deemed a success. But was it? How did crossing lines of class, race, and wealth affect the lives of these ten boys? Two decades later, Doug Merlino, who played on the team, returned to find his teammates. His search ranges from a prison cell to a hedge fund office, street corners to a shack in rural Oregon, a Pentecostal church to the records of a brutal murder. The result is a complex, gripping, and, at times, unsettling story. An instant classic in the vein of Michael Apted's *Up* series, *The Hustle* tells the stories of ten teammates set before a background of sweeping social and economic change, capturing the ways race, money, and opportunity shape our lives. A tale both personal and public, *The Hustle* is the story a disparate group of men finding - or not finding - a place in America

This Is Ear Hustle

Unflinching Stories of Everyday Prison Life *Crown*

An illuminating view of prison life, as told by currently and formerly incarcerated people, from the co-creators and co-hosts of the Peabody- and Pulitzer-nominated podcast Ear Hustle "A must-read for fans of the legendary podcast and all those who seek to understand crime, punishment, and mass incarceration in America."—Piper Kerman, author of *Orange Is the New Black* When Nigel Poor and Earlonne Woods met, Nigel was a photography professor volunteering with the Prison University Project and Earlonne was serving thirty-one years to life at

California's San Quentin State Prison. Initially drawn to each other by their shared interest in storytelling, neither had podcast production experience when they decided to enter Radiotopia's contest for new shows . . . and won. Using the prize for seed money, Nigel and Earlonne launched Ear Hustle, named after the prison term for "eavesdropping." It was the first podcast created and produced entirely within prison and would go on to be heard millions of times worldwide, garner Peabody and Pulitzer award nominations, and help earn Earlonne his freedom when his sentence was commuted in 2018. In *This Is Ear Hustle*, Nigel and Earlonne share their own stories of how they came to San Quentin, how they created their phenomenally popular podcast amid extreme limitations, and what has kept them collaborating season after season. They present new stories, all with the same insight, balance, and rapport that distinguish the podcast. In an era when more than two million people are incarcerated across the United States—a number that grows by 600,000 annually—Nigel and Earlonne explore the full and often surprising realities of prison life. With characteristic candor and humor, their moving portrayals include unexpected moments of self-discovery, unlikely alliances, inspirational resilience, and ingenious work-arounds. One personal narrative at a time, framed by Nigel's and Earlonne's distinct perspectives, *This Is Ear Hustle* reveals the complexity of life for incarcerated and formerly incarcerated people while illuminating the shared experiences of humanity that unite us all.

Don't Knock the Hustle

Young Creatives, Tech Ingenuity, and the Making of a New Innovation Economy *Beacon Press*

Offers a timely analysis of the sheer ingenuity and persistence of young people who cobble together the resources they need to pursue the lives and careers they want. Young adults are coming of age at a time when work is temporary, underpaid, incommensurate with their education, or downright unsatisfying. Despite these challenges, media scholar S. Craig Watkins argues that this moment of precarity is rife with opportunities for innovation, and that young adults are leading the charge in turning that into an inventive and surprisingly sustainable future. As a result, society is expanding its understanding of who we think of as innovators and what qualifies as innovation, while wealth is spreading beyond traditional corridors of powerful tech companies, venture capitalism, and well-endowed universities. Drawing on over ten years of interviews and data, Watkins reveals the radical ways in which this community of ambitious young creatives is transforming businesses from the outside in. Diverse perspectives that are often ignored or silenced by major corporations are garnering public attention as women and people of color are redefining industries across the globe—all from their computer screens. We meet people like Prince Harvey, a New York-based hip-hop artist who recorded his album entirely on an Apple showroom laptop; screenwriter, producer, and actor Issa Rae, who first used YouTube and Kickstarter to develop the web series that became her hit HBO show *Insecure*; the Empowerment Plan, a nonprofit organization created by product design student Veronika Scott in Detroit; and

start-up companies like Qeyno Group in San Francisco and Juegos Rancheros in Austin that help make tech more accessible to people of color. Forward-thinking and dynamic, *Don't Knock the Hustle* shows the diversity and complexity of a generation on the rise. UNIQUE APPROACH TO UNDERSTANDING MILLENNIALS that looks beyond stereotypes about their relationships with tech and labor, based on two years of MacArthur Grant-funded research. DIVERSE AUDIENCE APPEAL that will reach millennials, educators, people seeking to hire millennials, and scholars of technology, media, and labor.

The Noble Hustle

Poker, Beef Jerky and Death *Anchor Books*

In 2011, *Grantland* magazine gave novelist Colson Whitehead \$10,000 to play at the World Series of Poker in Las Vegas. Whitehead brilliantly details his progress, both literal and existential, through the event's antes and turns, through its gritty moments of calculation, hope, and spectacle. -- back cover.

Once you have these actions identified, you need to purposely spend your day working on these actions. It will help you to prioritize your time accordingly. Lastly, before you go to bed, you will review what you completed each day and determine what the key actions need to be for tomorrow. Then you repeat this daily. While it is passion and purpose that get you started, it is habit that keeps you

moving. *The Daily Hustle (Hustle Harder)* will turn your behaviors into consistent habits and keep you progressing forward over the next thirty days. By the time you get to the end of the book, you should have built in the self-discipline to continue to turn actions into daily habits, thereby continuing to move towards your goals and win! Remember, success is the sum of small efforts, repeated day in and day out. Keep hustling, but remember hustling isn't just working on the things you like. It also means doing the things you don't enjoy so you can ultimately do the things you love. You have to keep on grinding. Now put your helmet on and let's go. It's game day. Over It

How to Face Life's Hurdles with Grit, Hustle, and Grace *Thomas Nelson*

Over It is a high-octane dose of encouragement, storytelling, and hard-won advice from Lolo Jones, three-time Olympian and world champion hurdler and bobsledder. Lolo is perhaps better known today not for all the races she's won but for the millisecond mistake that cost her an Olympic gold medal over a decade ago. With stunning authenticity about her own struggles, longings, and losses, she shows us how to face our challenges head-on and keep working to overcome them. Lolo challenges us to: handle failure while pursuing our dreams; recognize the difference between achieving a goal and experiencing success; turn our most painful moments into the most successful; use thankfulness and faith to develop healthy hindsight; and give and receive forgiveness as the path back to life. Growing up in a broken home, Lolo learned to shoplift at a young age just to eat at night and sometimes slept on the basement floor of the Salvation Army. While her father was in prison, her mother worked multiple jobs, and Lolo realized she needed to be self-motivated, singularly focused, and unwilling to quit if she wanted to

succeed. Reflecting on her own challenging spiritual journey, Lolo invites us to rest in God who can make all the difference in overcoming obstacles with both strength and joy.

When the World was Black Part Two

The Untold History of the World’s First Civilizations Ancient Civilizations Supreme Design Publishing

When the World Was Black: The Untold History of the World’s First Civilizations (Volume Two of The Science of Self series) has been published in TWO parts. Why two? Because there are far too many stories that remain untold. We had over 200,000 years of Black history to tell – from the southern tip of Chile to the northernmost isles of Europe – and you can’t do that justice in a 300-page book. So there are two parts, each consisting of 360 pages of groundbreaking history, digging deep into the story of all the world’s original people. Part One covers the Black origins of all the world’s oldest cultures and societies, spanning more than 200,000 years of human history. Part Two tells the stories of the Black men and women who introduced urban civilization to the world over the last 20,000 years, up to the time of European contact. Each part has over 100 helpful maps, graphs, and photos, an 8-page full-color insert in the center, and over 300 footnotes and references for further research. “In this book, you’ll learn about the history of Black people. I don’t mean the history you learned in school, which most likely began with slavery and ended with the Civil Rights Movement. I’m talking about Black history BEFORE that. Long before that. In this book, we’ll cover over 200,000 years of Black history. For many of us, that sounds strange. We can’t even imagine what the Black past was like before the slave trade, much less imagine that such a history goes back 200,000 years or more.” “Part Two covers history from 20,000 years ago to the point of European contact. This is the time that prehistoric cultures grew into

ancient urban civilizations, a transition known to historians as the “Neolithic Revolution.”

The Myth, Life, and Lies of Pete Rose *Simon and Schuster*

Who is Pete Rose? Is he Charlie Hustle, the all-American kid who never grew up, who pushed and stretched himself to get the most out of his limited talent, who would do anything in his power to win and to be a part of the game he loved? Or is he the bloated ex-athlete who broke baseball's one absolute taboo, and who was willing to drag down the whole structure of the sport to save himself? In January 2004, Pete Rose publicly admitted to betting on baseball and began his controversial campaign to get himself off the ineligible list and into the Baseball Hall of Fame. His recently published autobiography, the baseball legend's selective telling of the truth, only furthers the myth and the mystery that surrounds him. With a new, updated introduction by the author, and packed with interviews with Rose's family, his teammates, sportswriters, and police investigators, *Hustle* is the real, objective story of the life of Pete Rose.

Hustle and Float

Reclaim Your Creativity and Thrive in a World Obsessed with Work

Diversion Books

OUR CULTURE HAS BECOME OBSESSED WITH HUSTLING. As we struggle to keep up in a knowledge economy that never sleeps, we arm ourselves with life hacks, to-do lists, and an inbox-zero mentality, grasping at anything that will help us work faster, push harder, and produce more. There's just one problem: most of these solutions are making things worse. Creativity isn't produced on an assembly line, and endless hustle is ruining our mental and physical health while subtracting from our creative performance. Productivity and Creativity are not compatible; we are stuck between them, and like the opposite poles of a magnet, they are tearing us apart. When we're told to sleep more, meditate, and slow down, we nod our heads in agreement, yet seem incapable

of applying this advice in our own lives. Why do we act against our creative best interests? WE HAVE FORGOTTEN HOW TO FLOAT. The answer lies in our history, culture, and biology. Instead of focusing on how we work, we must understand why we work—why we believe that what we do determines who we are. Hustle and Float explores how our work culture creates contradictions between what we think we want and what we actually need, and points the way to a more humane, more sustainable, and, yes, more creative, way of working and living.

To Hell with the Hustle

Reclaiming Your Life in an Overworked, Overspent, and Overconnected World *Thomas Nelson*

New York Times bestselling author Jefferson Bethke delivers a call to resist our cultural worship of connectivity and achievement before we lose the essentials that make us distinctly and deeply human. Our culture makes constant demands of us. Do more. Accomplish more. Buy more. Post more. Tweet more. And in following those demands, we have indeed become more--more anxious, more tired, more hurt, more depressed, more frantic. What we are doing isn't working because, Jefferson Bethke argues, we have forgotten the fundamentals that make us human, the things that anchor our lives, providing us with roots and meaning. In this highly anticipated new book, Jefferson Bethke delivers a wake-up call to resist our culture and embrace the slowness of Jesus. To stop doing and start becoming by proactively setting up boundaries in our lives and cultivating disciplines within them. He shows his readers how to find landmarks, anchors, and rhythms that provide depth and meaning and that push back against the demands of contemporary life. And he reveals that what the world teaches us to avoid at all costs--things such as silence, obscurity, solitude, and vulnerability--are the very things that can give us the meaning, depth, order, and the richness we are truly looking for.

When the World Was Black Part One

The Untold History of the World's First Civilizations Prehistoric Culture *Supreme Design Publishing*

When the World Was Black: The Untold History of the World's First Civilizations (Volume Two of *The Science of Self* series) has been published in TWO parts. Why two? Because there are far too many stories that remain untold. We had over 200,000 years of Black history to tell – from the southern tip of Chile to the northernmost isles of Europe – and you can't do that justice in a 300-page book. So there are two parts, each consisting of 360 pages of groundbreaking history, digging deep into the story of all the world's original people. Part One covers the Black origins of all the world's oldest cultures and societies, spanning more than 200,000 years of human history. Part Two tells the stories of the Black men and women who introduced urban civilization to the world over the last 20,000 years, up to the time of European contact. Each part

has over 100 helpful maps, graphs, and photos, an 8-page full-color insert in the center, and over 300 footnotes and references for further research. “In this book, you’ll learn about the history of Black people. I don’t mean the history you learned in school, which most likely began with slavery and ended with the Civil Rights Movement. I’m talking about Black history BEFORE that. Long before that. In this book, we’ll cover over 200,000 years of Black history. For many of us, that sounds strange. We can’t even imagine what the Black past was like before the slave trade, much less imagine that such a history goes back 200,000 years or more.” “Part Two covers history from 20,000 years ago to the point of European contact. This is the time that prehistoric cultures grew into ancient urban civilizations, a transition known to historians as the “Neolithic Revolution.”

Black People Invented Everything

The Deep History of Indigenous Creativity *Supreme Design Publishing*

Who invented the traffic light? What about transportation itself? Farming? Art? Modern chemistry? Who made...cats? What if I told you there was ONE answer to all of these questions? That one answer? BLACK PEOPLE! Seriously. And this book is like a mini-encyclopedia, full of more evidence than WikiLeaks and just as eye-opening! Do you know just how much Black inventors and creators have given to modern society? Within the past 200 years, Black Americans have drawn on a timeless well of inner genius to innovate and engineer the design of the world we live in today. But what of all the Black history before then? Before white people invented the Patent Office, Black folks

were the original creators and builders, developing ingenious ways to manage the world’s changes over millions of years, everywhere you can imagine, from Azerbaijan to Zagazig! With wit and wisdom (and tons of pictures!) this book digs deeper than the whitewashed history we learn in school books and explores how our African ancestors established the foundation of modern society! Have you inherited this genius? What can you do with it? Inspired by solutions from the past, we can develop strategies for a successful future!

Hustling

The Art of Black Financial Survival

Rufus Shaw Pub

Rufus Shaw's Book, "Hustling: The Art of Black financial Survival," is a simple, common sense guide on how black business people can survive and even prosper if they know what they are doing. Shaw, whose first book was "How to be Rich nigger," has two degrees from Southern Methodist University in Dallas. He said his street sense was learned in the predominantly black section of South Dallas. Using Humor, poetry and a smattering of profanity, Shaw avoids complicated economic formulas. He starts off by defining hustling: .."making something positive happen under difficult circumstances by using a combination of common sense, understanding of human nature, daring and hard work." In his straight forward style, Shaw Discusses such topics as understanding man from a street perspective, business from that same

perspective, the educated fool, going broke and investments. The book is quick and easy reading. Shaw Breaks no new ground as he drops numerous jewels on his readers: "Without some form of education you're lost. Racism will you down, but ignorance will knock you out " or "When money is in hand, pay your bills on time, when money is short, pay in 60 days, when money is shortest, pay something, but never pay nothing." or: "If you're sued, it is not the end of the world. Millions of people have been sued and have judgments pending..but they live everyday, normal lives. There's no "X" marked on their forehead.. Sure, it'll mess up your credit. The minute the bill collectors start calling, your credit was "Screwed." Shaw also devotes a chapter on crime and how it can be a money maker, but not without risks, for black people. There even is a subheading entitled, "Prison University." He does not preach, but he does touch many bases in a fact filled and entertaining 103 page book. Shaw's greatest success in this to me is pulling together a lot of basic wisdom and putting it down in black and white.
