Review of A. J. Silverstein, Postal Systems in the Pre ...

The courier system was the first organized delivery system for written information that we know of. But it was not yet used for letters and messages between parties besides pharaoh. In Ancient Persia, during the period of 550 BC to 521 BC, a true postal system was developed in Assyria. It is disputed whether it was Cyrus the Great or his successor Darius I, who was responsible. The postal system of Persia was operated by a series of stations.

Early History of Postal Systems | Salt Lake Mailing and ...

In the course of these 200 years there were two postal systems for London, the General Post and the Penny Post. These systems were run concurrently, but had different offices, staff, accounting and of course, different postal markings. It is such a large section that we have split them into smaller sections on the following pages.

British Postal History

A schoolmaster from England, Rowland Hill (1795-1879), invented the adhesive postage stamp in 1837, an act for which he was knighted. Through his efforts, the first postage stamp system in the world was issued in England in 1840. Hill created

the first uniform postage rates that were based on weight, rather than size.

History of Mail and the Postal System - ThoughtCo

Pre-adhesive mail also called pre-stamp mail is mail used before the issuance of the Penny Black and Two pence Blue stamps on 6 May 1840 in the United Kingdom of Great Britain and Ireland, and in other countries, mail used prior to the postal authority adopting their own adhesive labels. The material can range from court and government letters before official public mail services to distinctive town-marks worldwide.

The Early American Postal System. Early American Map of Postal Road Between Boston and New York City. In the early American colonies, there was no organized postal service until the late 17th century, and even then it operated much differently than it does today. Before this time, the Americans relied on friends, merchants, and sometimes even the Native American population to carry their mail for them.

Early American Postal Service

The mail or post is a system for physically transporting postcards, letters, and parcels. A postal service can be private or public, though many governments place restrictions on private systems. Since the mid-19th century, national postal systems have generally been established as a government monopoly, with a fee on the article prepaid. Proof of payment is usually in the form of
