The City and the Stars - Wikipedia

In "The City and the Stars", Arthur C. Clarke envisions mankind having fallen into two cultural niches, each limited by their own approaches to life. Diaspar, a city in which some 10 million people lives have been extended by technology to 1000 years, and each life ends when its personality is encoded into a nearly omnipotent computer for later reincarnation, has become the womb of humanity.

One of those is another classic that I picked up as part of the SF Masterworks series, Arthur C. Clarke's 1956 novel *The City and the Stars*. As I've noted before, I have been playing "catch-up" with science fiction, as horror is my usual area of interest, so I am not extremely familiar with the great works of a lot of the classic authors.
