Back Pain Relief in 90 Seconds!

The Pain Free Approach to Resetting the Nervous System and Releasing Muscle Spasms *Neuromuscular Therapy/Scs*

The pain-free approach to resetting the nervous system and releasing muscle spasms From Neuromuscular Therapist Gadi Kaufman comes the long awaited book about how to relieve back pain using the pain-free approach called Strain Counterstrain Technique. In *Back Pain Relief in 90 Seconds*, you will learn important information about lower back pain that you have not been told by the previous practitioners. For example, did you know that the majority of lower back pain does not actually originate in the lower back muscles themselves? In other

words, when you feel lower back pain, the true source of that pain can often be traced to muscles and joints in the front of the body. Yes, that's right: those tired and overused muscles in the front of the body can radiate severe pain to the lower back. This lower back pain quickly becomes chronic due to a chain reaction that occurs which limits mobility, twists and torques the spine, rotates the pelvis, and compresses hip sockets on both sides of the body. At the center of this chain reaction is a painful muscle spasm, which means the muscle has essentially shut down and stopped contracting and releasing. If this muscle spasm is left untreated, your lower back pain can persist for years. But now you can do something about it. In *Back Pain Relief in 90 Seconds*, you will learn how to use

the passive and pain-free Strain Counterstrain Technique to release persistent muscle spasms and relieve your lower back pain -- in the comfort of your own home, and with no more equipment than your sofa or a chair. This technique is extremely gentle and doesn't require spinal manipulations or uncomfortable maneuvers or deep tissue massage. You can relieve your pain without harsh medications, and without any additional pain during the process. *Back Pain Relief in 90 Seconds* is not another book of exercises and stretching. This technique will manipulate the autonomic nervous system and switch off the muscle spasm (which is being controlled by the nervous system). Relieving this pain is all about the nervous system. If you don't allow

the nervous system to reset, then the spasm will not release. Muscles are dependent on the nervous system. As the author Gadi Kaufman famously says: "The nervous system is the boss! The muscles are the employees!" The step-by-step instructions and illustrations in *Back Pain Relief in 90 Seconds* focus on the specific muscles that are known contributors to lower back pain including: Psoas, Iliacus, Rectus Abdominus, Abdominal Obliques, Quadratus Lumborum, Piriformis, and more. With these 10 positional releases, you can begin to live again without lower back pain, which is something everyone deserves.

Off the Grid Without a Paddle *Lynne Farr*

OFF THE GRID WITHOUT A PADDLE is the true story of two greenhorns, escapees from the gritty City Of Los Angeles, who buy a home off the grid in a tropical mountain rainforest in rural Hawaii, with fantasies of utopia and dreams of self-sufficiency, but no real idea of what they're getting into. In their first year in an unfamiliar new world, the high-tech, low-tech, no-tech learning curve is steep and hilarious: exasperating, exhilarating . . . exciting! Whether or not you share the dream of moving off the grid, you'll get a laugh out of their unexpected adventures.

The First Cut Is the Deepest

Identifying and Healing "Cuts" That Shape Our Lives *Createspace Independent Publishing Platform*

This book is a detailed depiction of the "cuts" that people incur or will incur over the course of their lives, and how those "cuts" subsequently shape their lives. (Cuts are hurts, experiences, tragedies, and/or various pains incurred). Unfortunately, people will inevitably incur hurts and pains in life, which most are beyond their own control. One simply cannot control what happens to them at the hands of another. People hurt other people. It's not so much the

hurt that causes the problem, but more so the effects of the hurt. Oftentimes, people ignore the hurt. They try to live their lives as if the hurt never occurred. Many are oblivious to their deep hurt because they've mastered the art of disguising the pain. The problem ensues when the severely wounded people interact with others, then they subsequently inflict others with the residual hurt that they've been harboring. Because of this, many fail to realize that they've been "cut" and are in need of healing. The purpose of this book is to aid in identifying and healing cuts from one's life (including their past, present, or possibly their future), as these cuts will affect one's life in some regard. Oftentimes, people need healing to recover from some trauma or tragedy

that they've endured, yet they're too afraid to ask for help. Many internalize their feelings, never properly articulating their mental anguish, ultimately forsaking the need and opportunity to heal. It's the lack of healing that causes people to hurt others or live unhappy lives. This book was written to aid people with identifying their hurt, their need for healing, and ultimately helping them to heal and subsequently live their best lives.

Adrastine is drawn to Jacob, despite their differences. But that is a dangerous path, as he is an unwelcome distraction to her quest for revenge. Conquering Shame and Codependency

8 Steps to Freeing the True You *Hazelden Publishing*

A nationally recognized author and codependency expert examines the roots of shame and its connection with codependent relationships. Learn how to heal from their destructive hold by implementing eight steps that will empower the real you, and lead to healthier relationships. Shame: the torment you feel when you're exposed, humiliated, or rejected; the feeling of not

being good enough. It's a deeply painful and universal emotion, yet is not frequently discussed. For some, shame lurks in the unconscious, undermining self-esteem, destroying confidence, and leading to codependency. These codependent relationships—where we overlook our own needs and desires as we try to care for, protect, or please another—often cover up abuse, addiction, or other harmful behaviors. Shame and codependency feed off one another, making us feel stuck, never able to let go, move on, and become the true self we were meant to be. In *Conquering Shame and Codependency*, Darlene Lancer sheds new light on shame: how codependents' feelings and beliefs about shame affect their identity, their behavior, and how shame can

corrode relationships, destroying trust and love. She then provides eight steps to heal from shame, learn to love yourself, and develop healthy relationships.

Healing Power: Ten Steps to Pain Management and Spiritual Evolution Revised

Introducing the Universal Healing Wheel *AuthorHouse*

With the advent of mind-body medicine, it is now possible to combine the healing principles of both the medical and spiritual fields. To this end, Dr. Phil Shapiro has developed a ten-step, self-help model that he uses himself and teaches to his students and patients. After you have received your

medication, surgery, or natural remedy and you are still in pain, there are a variety of psychosocial and spiritual methods that can help you manage that pain skillfully. The ten-step model described in this book is a composite of healing principles and methods extracted from the great wisdom traditions and organized into cognitive-behavioral practices. These techniques are designed to help the reader accomplish three goals: 1. Expand healing power: for body, mind, and soul 2. Become more skillful pain managers: for any pain, problem, disease, or disability 3. Evolve spiritually: feel better, become a better person, and experience higher states of consciousness To take advantage of the healing principles embedded in the

religions, we need to solve the problem of toxic language and traumatic religious history. There is a way to do this. We can design healing models that serve people of all persuasions: Baptists, Sufis, ethical humanists, scientific atheists, true believers, true non-believers—all of us have the same magnificent healing power in every cell of our bodies, and we know how to make it grow. The ten steps do not declare answers to life's big

questions, such as why we are born, why there is so much suffering and evil, whether there is a God, and where we go after death. However, we can apply the wealth of healing wisdom in the great faith traditions to help us manage our pain and heal. This book is written for atheists, agnostics, religious or spiritual persons. Anyone can play in the expanded field of healing power.
