Yet effective environmental policy integration has proved to be very difficult in practice and it remains largely an elusive aspiration.This groundbreaking volume presents the first ever detailed

examination of EPI at the national policy level, focusing on the key sectors of energy and agriculture within Sweden, a country that is widely recognized as a front runner in environmental management.

Environmental Policy Integration in Practice

more... Environmental policy integration (EPI) is the process of placing environmental considerations at the heart of decision-making in other sectoral policies, such as energy and agriculture, rather than leaving them to be pursued separately through purely environmental policy instruments. The requirement to integrate the needs of the environment into other sectoral policies has been included in the EU Treaties since 1987.
