The Latin Monetary Union, comprising France, Belgium, Italy, Switzerland and Greece, existed between 1865 and 1927, with coinage made of gold and silver. Coins of each country were legal

tender and freely interchangeable across the area. The union's success made other states join informally.

Currency union - Wikipedia

Historically, monetary unions have been formed on the basis of both economic and political considerations. A monetary union is accompanied by setting up a single monetary policy and establishing a single central bank or by making the already existing national central banks the integrative units of a common central banking system. Usually, a monetary union involves the introduction of common banknotes and coins. This function, however, might be split among the participating states.

Monetary union | economics | Britannica

The Economic and Monetary Union (EMU) is an umbrella term for the group of policies aimed at converging the economies of member states of the European Union at three stages. The policies cover the 19 eurozone states, as well as non-euro European Union states. Each stage of the EMU consists of progressively closer economic integration. Only once a state participates in the third stage it is permitted to adopt the euro as its official currency. As such, the third stage is largely synonymous with t

Economic and Monetary Union of the European Union - Wikipedia

However, the results of the study indicate that monetary union in the case of the CFA franc zone did not promote economic integration among member countries in the form of expanded

trade. The actual trade among these countries remained small despite the use of common foreign exchange policy and free transferability of resources among these countries.
