Basic Steps in the Research Process - NHCC.edu

Defining the goals and objectives of a research project is one of the most important steps in the research process. Clearly stated goals keep a research project focused. The process of goal definition usually begins by writing down the broad and general goals of the study.

The Research Process - StatPac

Research is a systematic process based on the scientific method that facilitates the identification of relationships and determination of differences in order to answer a question.

Overview of the Research Process

A research proposal is a document proposing a research project, generally in the sciences or academia, and generally constitutes a request for sponsorship of that research. Proposals are evaluated on the cost and potential impact of the proposed research, and on the soundness of the proposed plan for carrying it out. Research proposals generally address several key points:
