How Pictures Complete Us

The Beautiful, the Sublime, and the Divine *Stanford University Press*

Despite the wonders of the digital world, people still go in record numbers to view drawings and paintings in galleries. Why? What is the magic that pictures work on us? This book provides a provocative explanation, arguing that some pictures have special kinds of beauty and sublimity that offer aesthetic transcendence. They take us imaginatively beyond our finite limits and even invoke a sense of the divine. Such aesthetic transcendence forges a relationship with the ultimate and completes us psychologically. Philosophers and theologians sometimes account for this as an effect of art, but How Pictures Complete Us distinguishes itself by revealing how this experience is embodied in pictorial structures and styles. Through detailed discussions of artworks from the Renaissance through postmodern times, Paul Crowther reappraises the entire scope of beauty and the sublime in the context of both representational and abstract art, offering unexpected insights into familiar phenomena such as ideal beauty, pictorial perspective, and what pictures are in the first place.

Inspired by Fernand Léger and Henri Matisse, Bruna's clearly defined use of line, color, and text, confirmed that for him, the illustration and book design processes were inseparable. Ingman shows us how the elegant simplicity of Bruna's illustrations appeals to children, artists, and designers alike, and how he gained devoted fans across ages and artistic disciplines. With an illustrator's insight, this book celebrates Bruna along with his influences. A glimpse into his studio reveals a man of many media, including drawing, painting, collage, and photography. All the elements of Bruna's extensive body of work, spanning book covers, posters, stamps, and merchandise, are given space in this illuminating study of his stunningly successful career.
