Heal Your Mind

Your Prescription for Wholeness through Medicine, Affirmations, and Intuition Hay House, Inc

"A much-needed guidebook . . . a treasure chest of insights." — Caroline Myss, M.D. "[A] brilliant new work . . . profound healing advice." — Brian L. Weiss, M.D. Many of us grapple with how to stay happy, calm, and focused in a world that seems to get more complex by the minute. How do we keep our wits about us, our mood stable, and our memory intact when our brains and bodies are bombarded with information and influences from every side? This one-of-a-kind resource combines cutting-edge science with compassion and wisdom to offer answers we can really use. Heal Your Mind continues the three-pronged healing approach that Dr. Mona Lisa Schulz and Louise Hay pioneered together in All Is Well: Heal Your Body with Medicine, Affirmations, and Intuition. Here, it's applied to aspects of the mind ranging from depression, anxiety, and addiction to memory, learning, and even mystical states. You'll learn what's going on in your brain and body when you feel sad, angry, or panicked; you have trouble focusing, reading, or remembering; a past trauma is clouding your mind in the present; and more. And in each chapter, you'll get a "virtual healing experience" through case studies in the All Is Well Clinic, where Dr. Mona Lisa uses medical intuition to pinpoint issues in a wide range of prototypical client histories and she and Louise offer solutions and affirmations to help restore well-being. Today, we tend to think our minds and bodies need an endless array of expensive, ever-changing pharmaceutical interventions. In truth, medicines are just one approach to healing the mind; nutritional supplements also support mind-body health; and affirmations restore us to balance by changing the way we think. Heal Your Mind puts all these tools at your disposal to help you choose your own path.

We Are One: How the World Adds Up *Candlewick Press*

The whole is greater than the sum of its parts--and unity and connection are most important of all--in a beautifully illustrated counting book with a timely message. One can be one thing all on its own--one star, one stream, one stick, one stone. But those on their toes, those using their smarts, know one can be more than the sum of its parts. Consider the two slices of bread that make up one sandwich, or the three lines of poetry that form one haiku, or even the ten years that form one

decade. From one to ten, from sandwiches to centuries, every part is necessary to the whole. In this fascinating concept book, a simple rhyming narration aimed at younger children is complemented by informational panels about subjects like the four compass points, the five acts in Shakespeare, the seven colors of a rainbow, or the nine innings in baseball. Award-winning author Susan Hood and debut children's book illustrator Linda Yan offer a mind-expanding look at early math concepts such as part/whole relationships, fractions, and addition--while underlying themes of cooperation, peace, and kindness make this beautiful volume one to be enjoyed by anyone at any age.

The Gospel According to Paul

Embracing the Good News at the Heart of Paul's Teachings *Thomas Nelson*

From master-expositor and Bible teacher John MacArthur, a revelatory exploration of what the apostle Paul actually taught about the good news of Jesus. The apostle Paul penned a number of very pithy, focused passages in his letters to the early church that summarize the gospel message in just a few well-chosen words. Each of these key texts has a unique emphasis highlighting some essential aspect of the Good News. The chapters in this revelatory new book closely examine those vital gospel texts, one verse at a time. John MacArthur, host of the popular media ministry *Grace to You*, president of the Master's University and Seminary, and longtime pastor at Grace Community Church, tackles such questions as, What is the gospel? What are the essential elements of the message? How can we be certain we have it right? And how should Christians be proclaiming the Good News to the world? As always, the answers John MacArthur gives are clear, compelling, well-reasoned, easy to grasp, and above all, thoroughly biblical. The Gospel According to Paul is written in a style that is easily accessible to lay people, including those who know very little about the Bible, while being of great value to seasoned pastors and experienced ministers.

Reinventing yourself *Plataforma*

At the oracle in Delphos, at the entrance to Apollo's temple in ancient Greece, there was a stone which had some strange signs written on it. It was an invitation to begin one of the most fascinating adventures that a human being can undertake. In other words, the adventure of self-discovery. This book is a map which will accompany us on this trip inside ourselves. Little by little the secret of how people create the eyes through which we observe and perceive the world, will be revealed. It is with the same eyes that so often make us focus on our guilt about the past rather than on future opportunities. Reinventing yourself does not mean becoming someone different from how we really are but rather bring our REAL SELF to the surface. It is in this new area of possibilities where creativity flows, along with the wisdom and energy to completely transform our experience, bringing with it more calm, desire and confidence into our lives. The key lies within ourselves, in the exercising of our personal freedom, taking choices that slowly but surely lead us to transform our outlook. Marcel Proust said that, "the real act of discovery does not consist in going out to look for a new land but in learning to see the old land with new eyes." It is with our new eyes that we will be

able to see what before we were blind to. It is also these new eyes which will lead us to discover how to reach what before had seemed unattainable.
