History Of The World By

World population, 10,000 BCE – 2,000 CE (vertical population scale is logarithmic) Human history, also known as world history, is the description of humanity's past. It is informed by archaeology, anthropology, genetics, linguistics, and other disciplines; and, for periods since the invention of writing, by recorded history and by secondary sources and studies.

Human history - Wikipedia

Our understanding of world history is changing, as new discoveries are made on all the continents and old prejudices are being challenged. In this truly global

journey Andrew Marr revisits some of the traditional epic stories, from classical Greece and Rome to the rise of Napoleon, but surrounds them with less familiar material, from Peru to the Ukraine, China to the Caribbean.

Summary. The History of the World is a
 graphic and textual portrayal of the
 history, influence and context for acid
 house and brass band music. Adopting
 the form of a flow diagram, it suggests
 that there are social and political echoes
 and points of confluence between these
 two musical movements that date from
 different eras; acid house being a post-
 industrial movement of the late
 twentieth century, and the brass band
 movement dating from the industrial era
 of the nineteenth century.
