Oracle Communications Order and Service Management 7.4.1

...

Overview of OSM. OSM is an order processing system that takes as input an order from a customer relationship management (CRM) system, and manages the fulfillment functions that need to be carried out to complete the order. Fulfillment functions include operations such as assigning a phone number, activating a service on the network, shipping a phone, and running billing.

Order and Service Management Overview - Oracle

This chapter provides an overview of Oracle Communications Order and Service

Management (OSM). About OSM. OSM coordinates the order fulfillment functions required to complete a customer order created in a customer relationship management (CRM) system, or other order-source system. As an order management system, OSM receives and recognizes customer orders and coordinates the actions to fulfill the order across provisioning, shipping, inventory, billing, and other fulfillment systems.
