Globalization is the process of increased interconnectedness among countries most notably in the areas of economics, politics, and culture. McDonald's in Japan, French films being played in Minneapolis, and the United Nations are all representations of globalization. Improved Technology in Transportation and Telecommunications

Globalization in the Modern World

Process of international integration arising of world views, products, ideas, and other aspects of culture. Globalization, or globalisation (Commonwealth English; see spelling differences), is the process of interaction and integration among people, companies, and governments worldwide. Globalization has accelerated since the 18th century due to advances in transportation and communication technology.

Globalization - Wikipedia

Globalization is the process of increased interconnectedness among countries. The prosperous economic development that is typically gained because of the increased interconnectedness among countries usually results in a better standard of living, and an overall improved quality of life.

The Role of Globalization in Economic Development by ...

The current era of globalization, with its unprecedented acceleration and intensification in the global flows of capital, labour, and information, is having a homogenizing influence on local culture. While this phenomenon promotes the integration of societies and has provided millions of people with new opportunities, it may also bring with it a loss of uniqueness of local culture, which in turn can lead to loss of identity, exclusion and even conflict.
