How Star Wars Conquered the

Universe is a “making of” book about Star Wars, but it is so much more than that. It isn’t just about Star Wars — it’s about everything around the movies, from the time of George Lucas’s childhood through the sale of Lucasfilm to Disney. Essentially, it’s a “making of” book that doesn’t ever really go into making the movies themselves, but rather covers everything around them.

'How Star Wars Conquered the Universe' review: a ...

Star Wars begins with one blisteringly stark message, written in the stars: the odds are overwhelming. You see it in the very first shot, as a tiny blockade runner whizzes

Since the first film's release in 1977, Taylor shows, *Star Wars* has conquered our culture with a sense of lightness and exuberance, while

remaining serious enough to influence politics in far-flung countries and spread a spirituality that appeals to religious groups and atheists alike.

Controversial digital upgrades and poorly received prequels have actually made the franchise stronger than

ever.
