PSI Astronomy Unit: Astrology--The Space Age Science?

In some ways, astrology may seem scientific. It uses scientific knowledge about heavenly bodies, as well as scientific sounding tools, like star charts. Some people use astrology to generate expectations about future events and people's personalities, much as scientific ideas generate expectations. And some claim that astrology is supported by evidence — the experiences of people who feel that astrology has worked for them.

Astrology: Is it scientific?

Astrology & Science. T hough we don't know how it works physically, astrology is not a faith. You can experience, observe and know how it applies first hand. There are sound reasons why it has proved so difficult to test the real practice of astrology under scientific conditions and why so many tests have been flawed. However, some simple ...
