Book Report: 'A Great Aridness' - The New York Times

A Great Aridness is certainly a

compelling read if you live in the American Southwest or even care about it just a little bit. Being a frequent visitor to the Southwest (but never having lived there), I can vouch that everything in the book appears to be completely accurate, with the main message, "Southwest, you are in one big heap of trouble".

A Great Aridness: Climate Change and the Future of the ...

To be clear, the current drought may not have been caused by climate change. After all, California has a long history of periodic fierce droughts that arise from entirely natural causes, some of them lasting a decade or more. Even so, at a minimum climate change remains a

potent factor in the present disaster.

California First: As Both Climate Victim and Responder ...

William deBuys, a TomDispatch regular, is the author of seven books, most recently *A Great Aridness: Climate Change and the Future of the American*

Southwest. He has long been involved in environmental affairs in the Southwest, including service as founding chairman of the Valles Caldera Trust, which administers the 87,000-acre Valles Caldera National Preserve in New Mexico.
