A Writing Center Practitioner's Inquiry into Collaboration

Pedagogy, Practice, And Research *Routledge*

This book presents a model of Practitioner Inquiry (PI) as a systematic form of empirical research and provides a rationale for its suitability within a writing center context. Exploring the potential of writing centers as pedagogical sites that support research, the book offers an accessible model that guides both research and practice for writing center practitioners, while offering flexibility to account for their distinct contexts of practice. Responding to the increasing call in the field to produce empirical “RAD” (replicable, aggregable, data-driven) research, the author explores Practitioner Inquiry through explication of methodology and methods, a revisitation of collaboration to guide both practice and research, and examples of application of the model. Nordstrom grounds this research and scholarship in Hawai‘i’s context and explores Indigenous concepts and approaches to inform an ethical collaborative practice. Offering significant contributions to empirical research in the fields of writing center studies, composition, and education, this book will be of great relevance to writing center practitioners, anyone conducting empirical research, and researchers working in tutor professionalization, collaboration, translingual literacy practices, and research methodologies.

Writing and Literature

Composition as Inquiry, Learning, Thinking, and Communication *University of North Georgia*

In the age of Buzzfeeds, hashtags, and Tweets, students are increasingly favoring conversational writing and regarding academic writing as less pertinent in their personal lives, education, and future careers. *Writing and Literature: Composition as Inquiry, Learning, Thinking and Communication* connects students with works and exercises and promotes student learning that is kairotic and constructive. Dr. Tanya Long Bennett, professor of English at the University of North Georgia, poses questions that encourage active rather than passive learning. Furthering ideas presented in *Contribute a Verse: A Guide to First-Year Composition* as a complimentary companion, *Writing and Literature* builds a new conversation covering various

genres of literature and writing. Students learn the various writing styles appropriate for analyzing, addressing, and critiquing these genres including poetry, novels, dramas, and research writing. The text and its pairing of helpful visual aids throughout emphasizes the importance of critical reading and analysis in producing a successful composition. *Writing and Literature* is a refreshing textbook that links learning, literature, and life.

WRITING QUALITATIVE INQUIRY

SELF, STORIES, AND ACADEMIC LIFE *Left Coast Press*

Responding to the rapid growth of personal narrative as a method of inquiry among qualitative scholars, Bud Goodall offers a concise volume of practical advice for scholars and students seeking to work in this tradition. He provides writing tips and strategies from a well-published, successful author of creative nonfiction and concrete guidance on finding appropriate outlets for your work. For readers, he offers a set of criteria to assess the quality of creative nonfiction writing. Goodall suggests paths to success within the academy—still rife with political sinkholes for the narrative ethnographer—and ways of building a career as a public scholar. Goodall's work serves as both a writing manual and career guide for those in qualitative inquiry.

The Art and Architecture of Academic Writing *John Benjamins Publishing Company*

This book is a bridge to confident academic writing for advanced non-native English users. It emphasizes depth over breadth

through mastery of core writing competencies and strategies which apply to most academic disciplines and genres. Tailored to students in EMI programs, the content was piloted and revised during a longitudinal writing study. The innovative approach prepares students to write for the academic community through the dual lenses of Art (developing a writer's voice through choices in language, style, and topics) and Architecture (mastering norms of academic language, genre, and organization.) The user-friendly text maximizes time for writing practice and production by avoiding lengthy readings. Part 1 builds skills and confidence in writing by focusing on assignments that do not require research. Part 2 applies newly mastered principles, skills, and strategies to research-based writing. Students learn to incorporate thesis, research, and evidence into a process for academic writing by following the AWARE framework (Arranging to write, Writing, Assessing, Revising, and Editing.)

How to Write a Thesis *MIT Press*

Umberto Eco's wise and witty guide to researching and writing a thesis, published in English for the first time. By the time Umberto Eco published his best-selling novel *The Name of the Rose*, he was one of Italy's most celebrated intellectuals, a distinguished academic and the author of influential works on semiotics. Some years before that, in 1977, Eco published a little book for his students, *How to Write a Thesis*, in which he offered useful advice on all the steps involved in researching and writing a thesis—from choosing a topic to organizing a work schedule to writing the final draft. Now in its twenty-third edition in Italy and

translated into seventeen languages, *How to Write a Thesis* has become a classic. Remarkably, this is its first, long overdue publication in English. Eco's approach is anything but dry and academic. He not only offers practical advice but also considers larger questions about the value of the thesis-writing exercise. *How to Write a Thesis* is unlike any other writing manual. It reads like a novel. It is opinionated. It is frequently irreverent, sometimes polemical, and often hilarious. Eco advises students how to avoid “thesis neurosis” and he answers the important question “Must You Read Books?” He reminds students “You are not Proust” and “Write everything that comes into your head, but only in the first draft.” Of course, there was no Internet in 1977, but Eco's index card research system offers important lessons about critical thinking and information curating for students of today who may be burdened by Big Data. *How to Write a Thesis* belongs on the bookshelves of students, teachers, writers, and Eco fans everywhere. Already a classic, it would fit nicely between two other classics: *Strunk and White* and *The Name of the Rose*. Contents The Definition and Purpose of a Thesis • Choosing the Topic • Conducting Research • The Work Plan and the Index Cards • Writing the Thesis • The Final Draft

Linguistic Justice

Black Language, Literacy, Identity, and Pedagogy *Routledge*

Bringing together theory, research, and practice to dismantle Anti-Black Linguistic Racism and white linguistic supremacy, this book provides ethnographic snapshots of how Black students

navigate and negotiate their linguistic and racial identities across multiple contexts. By highlighting the counterstories of Black students, Baker-Bell demonstrates how traditional approaches to language education do not account for the emotional harm, internalized linguistic racism, or consequences these approaches have on Black students' sense of self and identity. This book presents Anti-Black Linguistic Racism as a framework that explicitly names and richly captures the linguistic violence, persecution, dehumanization, and marginalization Black Language-speakers endure when using their language in schools and in everyday life. To move toward Black linguistic liberation, Baker-Bell introduces a new way forward through Antiracist Black Language Pedagogy, a pedagogical approach that intentionally and unapologetically centers the linguistic, cultural, racial, intellectual, and self-confidence needs of Black students. This volume captures what Antiracist Black Language Pedagogy looks like in classrooms while simultaneously illustrating how theory, research, and practice can operate in tandem in pursuit of linguistic and racial justice. A crucial resource for educators, researchers, professors, and graduate students in language and literacy education, writing studies, sociology of education, sociolinguistics, and critical pedagogy, this book features a range of multimodal examples and practices through instructional maps, charts, artwork, and stories that reflect the urgent need for antiracist language pedagogies in our current social and political climate.

International Advances in Writing Research

Cultures, Places, Measures *Parlor Press LLC*

The authors report research that considers writing in all levels of schooling, in science, in the public sphere, and in the workplace, as well as the relationship among these various places of writing. The authors also consider the cultures of writing—among them national cultures, gender cultures, schooling cultures, scientific cultures, and cultures of the workplace.

Teaching Crowds

Learning and Social Media *Athabasca University Press*

Within the rapidly expanding field of educational technology, learners and educators must confront a seemingly overwhelming selection of tools designed to deliver and facilitate both online and blended learning. Many of these tools assume that learning is configured and delivered in closed contexts, through learning management systems (LMS). However, while traditional "classroom" learning is by no means obsolete, networked learning is in the ascendant. A foundational method in online and blended education, as well as the most common means of informal and self-directed learning, networked learning is rapidly becoming the dominant mode of teaching as well as learning. In *Teaching Crowds*, Dron and Anderson introduce a new model for understanding and exploiting the pedagogical potential of Web-

based technologies, one that rests on connections — on networks and collectives — rather than on separations. Recognizing that online learning both demands and affords new models of teaching and learning, the authors show how learners can engage with social media platforms to create an unbounded field of emergent connections. These connections empower learners, allowing them to draw from one another's expertise to formulate and fulfill their own educational goals. In an increasingly networked world, developing such skills will, they argue, better prepare students to become self-directed, lifelong learners.

These method chapters can be used in conjunction with the readings or independently, depending on the program/course goals or the preferences of individual teachers.

Demystifying Academic Writing

Genres, Moves, Skills, and Strategies *Routledge*

Informative, insightful, and accessible, this book is designed to enhance the capacity of graduate and undergraduate students, as well as early career scholars, to write for academic purposes. Fang describes key genres of academic writing, common rhetorical moves associated with each genre, essential skills needed to write the genres, and linguistic resources and strategies that are functional and effective for performing these moves and skills. Fang's functional linguistic approach to academic writing enables readers to do so much more than write

grammatically well-formed sentences. It leverages writing as a process of designing meaning to position language choices as the central focus, illuminating how language is a creative resource for presenting information, developing argument, embedding perspectives, engaging audience, and structuring text across genres and disciplines. Covering reading responses, book reviews, literature reviews, argumentative essays, empirical research articles, grant proposals, and more, this text is an all-in-one resource for building a successful career in academic writing and scholarly publishing. Each chapter features crafts for effective communication, authentic writing examples, practical applications, and reflective questions. Fang complements these features with self-assessment tools for writers and tips for empowering writers. Assuming no technical knowledge, this text is ideal for both non-native and native English speakers, and suitable for courses in academic writing, rhetoric and composition, and language/literacy education.

First Person Action Research

Living Life as Inquiry *SAGE*

In *First Person Action Research* Judi Marshall invites her reader to join her in the rich world of first person inquiry: a reflexive approach to life and to one's own participation in research and learning. Written as a collage of interrelated chapters, fragments and voices, this is an important meditation on the nature of inquiring action. Judi Marshall's book provides an accessible introduction to self-reflective practice; exploring its principles and practices and illustrating with reflective accounts of inquiry from

the author's professional and personal life. The book also considers action for change in relation to issues of ecological sustainability and corporate responsibility. Writing is reviewed as a process of inquiry, and as a way to present action research experiences. Connections are made with the work of the literary authors Nathalie Sarraute and Kazuo Ishiguro to expand the scope of typical academic writing practices. First Person Action Research is an important and practical resource for students, teachers and practitioners of action research alike. It is a thoughtful and sensitive account of an emerging field in Research Methods.

Culturally Responsive Teaching

Theory, Research, and Practice *Teachers College Press*

The achievement of students of color continues to be disproportionately low at all levels of education. More than ever, Geneva Gay's foundational book on culturally responsive teaching is essential reading in addressing the needs of today's diverse student population. Combining insights from multicultural education theory and research with real-life classroom stories, Gay demonstrates that all students will perform better on multiple measures of achievement when teaching is filtered through their own cultural experiences. This bestselling text has been extensively revised to include expanded coverage of student ethnic groups: African and Latino Americans as well as Asian and Native Americans as well as new material on culturally diverse communication, addressing common myths about language diversity and the effects of "English Plus" instruction.
