I have purchased a 1994 searay sea raider with a 90hp sportjet and a 1995 searay sea raider with a 95 hp sportjet. it appears the 90hp has a spark issue and the 95 hp appears to have been rewired and the original ignition switch is gone, so it doesnt do anything when the key is turned. I am considering putting the 95hp motor into the 1994 boat, that still has the original wiring in place.
