Battle in the Mind Fields

"We frequently see one idea appear in one discipline as if it were new, when it migrated from another discipline, like a mole that had dug under a fence and popped up on the other side." Taking note of this phenomenon, John Goldsmith and Bernard Laks embark on a uniquely interdisciplinary

history of the genesis of linguistics, from nineteenth-century currents of thought in the mind sciences through to the origins of structuralism and the ruptures, both political and intellectual, in the years leading up to World War II. Seeking to explain where contemporary ideas in linguistics come from and how they have been justified, Battle in the Mind Fields investigates the porous interplay of concepts between psychology, philosophy, mathematical logic, and linguistics. Goldsmith and Laks trace theories of thought, self-consciousness, and language from the machine age obsession with mind and matter to the development of analytic philosophy, behaviorism, Gestalt psychology, positivism, and structural linguistics, emphasizing throughout the synthesis and continuity that has brought about progress in our understanding of the human mind. Arguing that it is impossible to understand the history of any of these fields in isolation, Goldsmith and Laks suggest that the ruptures between them arose chiefly from social and institutional circumstances rather than a fundamental disparity of ideas.

The Battle for the Mind *Fleming H Revell Company*
"This book is dedicated to explaining humanism in simple terms, so that the man on the street can both understand its danger and be motivated to opposite it at the place it can be defeated - the ballot box....This is not a book of gloom, doom, and despair, but a clarion call to "saltless" Christians to fulfill Dr. Francis Schaeffer's challenge to: [1] Continue being lights in the world, but also... [2] Be a savoring moral influence in our culture." -- Introduction (p.10).

The Battle for the Mind

How You Can Think the Thoughts of God *Destiny Image Publishers*
The dichotomy of this book juxtaposes success and failure while solidifying the truth that walking with God is not conflict free because the essential nature of man is a unity of two (dichotomy) distinct realities, one physical (body) and spiritual (soul, spirit, mind). When the question is asked, What is the mind? The authors present a logical case for linking the paradigms of the mind from theology (truth) to philosophy (the search for truth) to provide a deeper understanding of two opposing forces that cause the battle between the desires of the flesh and the will of the spirit

Power Thoughts

12 Strategies to Win the Battle of the Mind *Faithwords*
One of the world's leading practical Bible teachers outlines a flexible program to turn thoughts into habits, and habits into success, by using the mind as a tool for achievement.

The Manipulated Mind

Brainwashing, Conditioning, and Indoctrination *ISHK*
Ever since American prisoners of war in Korea suddenly switched sides to the Communist cause, the concept of brainwashing has continued to fascinate and confuse. Is it really possible to force any thinking person to act in a way completely alien to his character? What makes so-called brainwashing so different from the equally insidious effects of indoctrination and conditioning, or even advertising and education? Research findings from psychology show that brainwashing is not a special subversive technique; it is the clever manipulation of unrealized influences that operate in all our lives. This book, by breaking down so-called brainwashing to its individual elements, shows how social conditioning, need for approval, emotional dependency and much else that we are unaware of, prevent us from being as self-directed as we think; and, conversely, which human traits make us the least susceptible to subtle influence.

The Battle of the Mind and Power of the Tongue *Xulon Press*
The Bible tells us that death and life are in the power of tongue and they that love it shall eat the fruit thereof (Proverbs 18:21). We are further told that every idle word that men shall speak, they shall give account thereof in the day of judgment; for by thy words thou shalt be justified, and by thy words thou shalt be condemned (Matthew 12:36 & 37). Most of the difficult problems or situations we are experiencing today are as a result of our negative thoughts and confessions of our mouths. Hear what the Bible has to say about this: The heart of the wise teacheth his mouth, and addeth learning to his lips (Proverbs 16:13). The battle of the mind is the greatest battle you have to fight, and it is a battle you have to win; for if you lose this battle, you lose everything. Therefore, at all times, you must come against negative thoughts that contradict the word of God, as well as the great things that you desire in your heart. Not only can the wrong thoughts entertained in your mind cause your prayers to be ineffective, it can also cause you to sin against God. The state of your mind can determine whether you are going to heaven or hell fire. Remember, God judges by the heart. In essence, the kind of information you process in your mind and the confession of your mouth will determine your destiny. Author: Evangelist K. Emmanuella Olaribigbe is a dynamic woman of God who has embraced her assignment to pursue, proclaim, and publish the word of God, to help people achieve their dreams and goals. Evangelist Olaribigbe is a nurse by profession, and has several hobbies, which include reading, writing, socializing, and worshipping God.

Mind Wars

The battle for your brain *Allen & Unwin*
Explores the notion that ideas are not simply phenomena that occur in the human brain but are self-replicating programs that spread from individual to individual.

Winning the Battle for Your Mind, Will and Emotions *Chosen Books*
The most important battle you face is the battle for your mind, will, and emotions. Why? Because it greatly determines how much of God and his kingdom you will experience while you're on earth. The thoughts we entertain, the words we speak, and the choices we make shape and influence not only our reality, but all of creation. The enemy loves to highlight our temporary challenges; poke at our feelings and stir up fear, frustration, doubt, and self-pity; and get us mired in murmuring and complaining. Yet the Bible shows us that all of heaven is available to us right now. In these pages you will discover the secret of Colossians: the incredible power of Christ in you. When you learn how to access his ever-present power and goodness, feelings and fears will no longer control you. You will go from being overwhelmed to being an overcomer. Heaven is only a decision away. How will you choose?

Brain Wars

The Scientific Battle Over the Existence of the Mind and the Proof That Will Change the Way We Live Our Lives *Harper Collins*
In Brain Wars, acclaimed neuroscientist Mario Beauregard reveals compelling new evidence set to provoke a major shift in our understanding of the mind-body debate: research showing that the mind and consciousness are transmitted and filtered through the brain—but are not generated by it. Following his boundary-breaking neuroscience book The Spiritual Brain: A Neuroscientist's Case for the Existence of the Soul, coauthored with Denyse O'Leary, Brain Wars makes a powerful and provocative case against the widely held view equating human beings to complex biological computers. Like Jeffrey M. Schwartz, Beauregard believes that consciousness is more than simply a physical process that takes place in the brain. And here, he presents the evidence to prove it. Brain Wars will revolutionize the way we think about thinking forever.

The Pentagon's Battle for the American Mind

The Early Cold War *Texas A&M University Press*
The U.S. military has historically believed itself to be the institution best suited to develop the

character, spiritual values, and patriotism of American youth. In Strategy for Survival, Lori Bogle investigates how the armed forces assigned itself the role of guardian and interpreter of national values and why it sought to create “ideologically sound Americans capable of defeating communism and assuring the victory of democracy at home and abroad.” Bogle shows that a tendency by some in the armed forces to diffuse their view of America’s civil religion among the general population predated tension with the Soviet Union. Bogle traces this trend from the Progressive Era though the early Cold War, when the Truman and Eisenhower administrations took seriously the battle of ideologies of that era and formulated plans that promised not only to meet the armed forces’ manpower needs but also to prepare the American public morally and spiritually for confrontation with the evils of communism. Both Truman’s plan for Universal Military Training and Eisenhower’s psychological warfare programs promoted an evangelical democracy and sought to inculcate a secular civil-military religion in the general public. During the early 1960s, joint military-civilian anticommunist conferences, organized by the authority of the Department of Defense, were exploited by ultra-conservative civilians advancing their own political and religious agendas. Bogle’s analysis suggests that cooperation among evangelicals, the military, and government was considered both necessary and normal. The Boy Scouts pushed a narrow vision of American democracy, and Joe McCarthy’s chauvinism was less an aberration than a particularly noxious manifestation of a widespread attitude. To combat communism, American society and its armed forces embraced brainwashing—narrow moral education that attacked everyone and everything not consonant with their view of the world and how it ought to be ordered. Exposure of this alliance ultimately dissolved it. However, the cult of toughness and the blinkered view of reality that characterized the armed forces and American society during the Cold War are still valued by many, and are thus still worthy of consideration.

Overcoming the Journey

Battle of the Mind

Growing up in a Christian home and being a pastor's child was very difficult. I wanted to just be an ordinary child, but I realized that I had to pay a price for a parent that has been called by God. As

well as the anointing God has placed on my own life. I share my story of growing up in a deliverance ministry church and battling whether or not I wanted to be a follower of Christ. Also, at a young age I was bullied, molested, and had to deal with the emotions of missing my biological dad. Church was supposed to be my place for peace, but my church family and even my family members did not support me. The one true person who was in my corner, my mom, I had almost lost. "Overcoming the Journey: Battle of the Mind" is my journey through my life storms and finding my identity and God.

Delusion and Mass Delusion

2021 Reprint of the 1949 Edition. Full facsimile of the original edition and not reproduced with Optical Recognition Software. Meerloo's best-known book is Rape of the Mind, published in 1956. The book received wide attention in part because it dealt with totalitarian applications of brainwashing techniques during the Korean War. Rape of the Mind explains how scientific brainwashing is done and argues that "hardly anyone can resist such." "Fear, and continual pressure are known to create a menticidal hypnosis. The conscious part of the personality no longer takes part in the automatic confessions. The brainwashee lives in a trance, repeating the record grooved into him by somebody else." In Delusion and Mass Delusion, Meerloo attempts to explain the mechanisms within the mind that allow for such manipulation. He attempts an explanation of the several mechanisms undergirding thought, many of which are not obviously available to individuals. An interesting early study on brainwashing by an early student of the practice.

Don't Give the Enemy a Seat at Your Table

It's Time to Win the Battle of Your Mind... *Thomas Nelson*

Louie Giglio helps you find encouragement, hope, and strength in the midst of any valley as you reject the enemy voices of fear, rage, lust, insecurity, anxiety, despair, temptation, or defeat. Scripture is clear: the Enemy is a liar who will stop at nothing to tempt you into poor decisions and self-defeating mindsets, making you feel afraid, angry, anxious, or defeated. It is all too easy for Satan to weasel his way into a seat at the table intended for only you and your King. But you can fight back. Don’t Give the Enemy a Seat at Your Table outlines the ways to overcome those lies so you can find peace and security in any challenging circumstance or situation. With the same bold, exciting approach to Scripture as employed in Goliath Must Fall and his other previous works, pastor Louie Giglio examines Psalm 23 in fresh ways, highlighting verse 5: “You prepare a table before me in the presence of my enemies.” You can find freedom from insecurity, temptation, and defeat—if you allow Jesus, the Shepherd, to lead the battle for your mind and heart. This spiritual warfare book for those who are leery of spiritual warfare books will resonate with Louie’s core Passion tribe as well as with Christians of all ages who want to live a triumphant life in God.

The Coddling of the American Mind

How Good Intentions and Bad Ideas Are Setting Up a Generation for Failure *Penguin*

New York Times Bestseller • Finalist for the 2018 National Book Critics Circle Award in Nonfiction • A New York Times Notable Book • Bloomberg Best Book of 2018 “Their distinctive contribution to the higher-education debate is to meet safetyism on its own, psychological turf . . . Lukianoff and Haidt tell us that safetyism undermines the freedom of inquiry and speech that are indispensable to universities.” —Jonathan Marks, Commentary “The remedies the book outlines should be considered on college campuses, among parents of current and future students, and by anyone longing for a more sane society.” —Pittsburgh Post-Gazette Something has been going wrong on many college campuses in the last few years. Speakers are shouted down. Students and professors say they are walking on eggshells and are afraid to speak honestly. Rates of anxiety, depression, and suicide are rising—on campus as well as nationally. How did this happen? First Amendment expert Greg Lukianoff and social psychologist Jonathan Haidt show how the new problems on campus have their origins in three terrible ideas that have become increasingly woven into American childhood and education: What doesn’t kill you makes you weaker; always trust your feelings; and life is a battle between good people and evil people. These three Great Untruths contradict basic psychological principles about well-being and ancient wisdom from many cultures. Embracing these untruths—and the resulting culture of safetyism—interferes with young people’s social, emotional, and intellectual development. It makes it harder for them to become autonomous adults who are able to navigate the bumpy road of life. Lukianoff and Haidt investigate the many social trends that have intersected to promote the spread of these untruths. They explore changes in childhood such as the rise of fearful parenting, the decline of unsupervised, child-directed play, and the new world of social media that has engulfed teenagers in the last decade. They examine changes on campus, including the corporatization of universities and the emergence of new ideas about identity and justice. They situate the conflicts on campus within the context of America’s rapidly rising political polarization and dysfunction. This is a book for anyone who is confused by what is happening on college campuses today, or has children, or is concerned about the growing inability of Americans to live, work, and cooperate across party lines.

God's Battle Plan for the Mind

The Puritan Practice of Biblical Meditation

During the seventeenth century, English Puritan pastors often encouraged their congregations in the spiritual discipline of meditating on God and His Word. Today, however, much of evangelicalism is either ignorant of or turned off to the idea of meditation. In God's Battle Plan for the Mind, pastor David Saxton seeks to convince God's people of the absolute necessity for personal meditation and motivate them to begin this work themselves. But he has not done this alone. Rather, he has labored through numerous Puritan works in order to bring together the best of their insights on meditation. Standing on the shoulders of these giants, Saxton teaches us how to meditate on divine truth and gives valuable guidance about how to rightly pattern our thinking throughout the day. With the rich experiential theology of the Puritans, this book lays out a course for enjoying true meditation on God's Word. "The popular conception of meditation has become so badly misshapen by mysticism, New Age influences, and Eastern religious notions that some otherwise sound Christians today seem to recoil from any mention of meditation as a necessary spiritual exercise. But nothing is more vital or more beneficial for understanding the truth and growing in sanctification than quiet, careful, focused reflection on the words and the meaning of Scripture. That's what the word meditation means in the Bible. No less than six times in Psalm 119 alone, the psalmist says 'I will meditate' on the precepts, promises, and principles of God's Word. The Puritans had much to say about biblical meditation and the important role it plays in a sanctified thought life. Dave Saxton has written an extremely helpful and encouraging digest of some of the best Puritan teaching on the subject. You need to get a copy, read it, put its principles into practice, and 'be transformed by the renewal of your mind.'" John MacArthur

A Study in Discerning the Times *Thomas Nelson Publishers*

New York Times best-selling author Tim LaHaye and author David Noebel give a wake-up call for Christians to fight the tide of popular beliefs and win the battle for your mind. Two basic sources of reasoning determine the thoughts, ideas, beliefs, values, aims, morals, lifestyles, and activities of mankind-the wisdom of man and the wisdom of God. According to Tim LaHaye and David Noebel, life is mainly about the battle for your mind: whether you will live by man's wisdom, from the likes of Marx, Darwin, Freud, and Nietzsche, or God's wisdom and those who gave it, such as Moses, the prophets, Christ, and the apostles. Your choice will affect the way you live now and ultimately where you will spend eternity.
