Relic *Del Rey*

The last known human searches the galaxy for companionship in a brilliant standalone novel from the legendary author of the Pip & Flixx series. "A provocative read."—The Washington Post Once Homo sapiens reigned supreme, spreading from star system to star system in an empire that encountered no alien life and thus knew no enemy . . . save itself. As had happened many times before, the basest, most primal human instincts rose up, only this time armed with the advanced scientific knowledge to create a genetically engineered smart virus that quickly wiped out humanity to the last man. That man is Ruslan, the sole known surviving human being in the universe. Rescued from the charnel house of his home planet by the Myssari—an intelligent alien race—Ruslan spends his days as something of a cross between a

research subject and a zoo attraction. Though the Myssari are determined to resurrect the human race, using Ruslan's genetic material, all he wants for himself and his species is oblivion. But then the Myssari make Ruslan an extraordinary offer: In exchange for his cooperation, they will do everything in their considerable power to find the lost home world of his species—an all-but-mythical place called Earth—and, perhaps, another living human. Thus begins an epic journey of adventure, danger, heartbreak, and hope, as Ruslan sets out in search of a place that may no longer exist—drawn by the slimmest yet most enduring hope. Praise for *Relic* “*Relic* is a thrilling and thoughtful epic. With Alan Dean Foster's trademark invention in both the psychology and physiology of his aliens, he also enriches the narrative with their complex cultures. The plot spans galaxies!”—Hugo and Nebula Award-winning author Greg Bear “The stunning plot of Foster's stand-alone novel will intrigue readers for not only the ‘last man in the universe’ trope but also the well-developed alien species. A true first contact novel on many different levels.”—Library Journal “Foster's sympathetic novel successfully surveys human frailty, the tendency not to learn from history, and an enduring capacity for adaptation and emotional attachment.”—Publishers Weekly “Foster's high-concept novel is a gripping tale of serenity amid sorrow.”—World Magazine

The Tar-aiym Krang *Del Rey*

With two great golden clouds suspended around it, Moth was the only planet that appeared to have wings. It was a beautiful planet . . . and a trap for the unwary. Here was a wide-open world for any venture a man might scheme. The planet attracted unwary travelers, hardened space-sailors, and merchant buccaneers—a teeming, constantly shifting horde that provided a comfortable income for certain quick-witted fellows like Flinx and his pet mini-dragon, Pip. With his odd talents, the pickings were easy enough so that Flinx did not have to be dishonest . . . most of the time. In fact, it hardly seemed dishonest at all to steal a starmap from a dead body that didn't really need it anymore. But Flinx forgot one crucial point. He should have wondered why the body was dead in the first place.

Lost and Found *Del Rey*

Ever since his classic debut, *The Tar-Aiym Krang*, the first of the wildly successful Pip and Flinx adventures, New York Times bestselling author Alan Dean Foster has captivated readers around the world. Now this writer of bold imagination and stunning originality has created an electrifying space epic set in a universe at once strangely familiar and starkly terrifying. Familiar

because the universe is ours; terrifying because the human condition might soon be. . . . Not so long ago Marcus Walker was just another young commodities trader in Chicago, working hard and playing harder. But that's all in the past, part of a life half forgotten—a reality that vanished when he was attacked while camping and tossed aboard a starship bound for deep space. Desperately, Walker searches for explanations, only to realize he's trapped in a horrifying nightmare that is all too real. Instead of being a rich hotshot at the top of the food chain, Walker discovers he's just another amusing novelty, part of a cargo of "cute" aliens from primitive planets—destined to be sold as pets to highly advanced populations in "civilized" regions of the galaxy. Even if he weren't constantly watched by his captors, Walker has few options. After all, there is no escape from a speeding starship. Another man might resign himself to the inevitable and hope to be sold to a kindly owner, but not Walker. This former college football star has plenty of American ingenuity and no intention of admitting defeat, now or ever. In fact, he's only just begun to fight. The adventure will continue with two more novels

After all, as one of the few

Alien Virus Love Disaster**Stories** *Small Beer Press*

Philip K. Dick Award finalist Washington Post Best Science Fiction and Fantasy of 2018 Abbey Mei Otis's short stories are contemporary fiction at its strongest: taking apart the supposed equality that is clearly just not there, putting humans under an alien microscope, putting humans under government control, putting kids from the moon into a small beach town and then the putting the rest of the town under the microscope as they react in ways we ope they would, and then, of course, in ways we'd hope they don't. Otis has long been fascinated in using strange situations to explore dynamics of power, oppression, and grief, and the twelve stories collected here are at once a striking indictment of the present and a powerful warning about the future. "After I read this book, I woke up with bumpy, reddish growths along my spine. They burst, releasing marvels: aliens, robots, prefab houses, vinyl, chainlink, styrofoam, star stuff, tales from the edge of eviction, so many new worlds. Alien Virus Love Disaster is a super-intelligent infection. Let Abbey Mei Otis give you some lumps." — Sofia Samatar, author of *Tender*

Icerigger *Hachette UK*

Far out on the frozen outer limits of the thranx/humanx Commonwealth, on the permafrosted plant of Tran-ky-ky, lay the chilly trading outpost of Brass Monkey. Inward bound on the interstellar transport Antares, Ethan Frome Fortune, space travelling salesman with a neat line in perfumes, jewelled knick-knacks and up market gadgetry, ran into grizzled, galactic hell raiser Skua September for the first time. Kidnapped, knocked unconscious and crash landed - all quite accidentally - they were about to find out that life on the sub- zero wasteland was full of incident. Bored they would not be. Dead they might well be - particularly if Sagyanak, Chief of the nomadic Horde, could lay hands on them. The great adventure has just begun and early

retirement was not an option.
