Are you looking to evaluate enterprise technologies faster? Sign up to watch GigaOm's 4-part on-demand research video series that breakdowns our research methodology and what differentiates us as a leader in emerging technology research.

Key Criteria for Evaluating DevSecOps Tools - Gigaom

Summary. The runaway growth of data in the enterprise puts organizations in a tough spot. To help

them manage, manipulate, query, and present a unified view of the data estate, organizations must turn to data

virtualization platforms that help consolidate disparate data sources logically, without forcing data to be physically moved or transformed.

The demand of educational technology has been rising steadily, primarily due to the fact that e-learning is a huge and significantly expanding world-wide industry. Commercial e-learning companies, training departments in large companies and organizations, computer software companies and educational institutions the world over employ large numbers of educational technology specialists.

Educational Technology | SpringerLink

Data catalogs have come of age. In the present technology environment, where data is fragmented, spread, and distributed everywhere; across corporate data centers and public clouds, from local hard drives to corporate servers, enterprise storage and cloud object stores, databases, data warehouses, and data lakes; enterprises have a huge task in front of them, to discover, inventory, coalesce ...
