Template for writing a specification - supplies and ...

A design or product specification describes the features of the solutions for the Requirement Specification, referring to either a designed solution or final produced solution. It is often used to guide fabrication/production. Sometimes the term specification is here used in connection with a data sheet (or spec sheet), which

may be confusing. A data sheet describes the technical characteristics of an item or product, often published by a manufacturer to help people choose or use the products.

Specification (technical standard) - Wikipedia
