O&M manuals should be developed in a modular, building block style, to simplify the incorporation of new/additional data, such as design/configuration changes, and to reflect as-built conditions. The manual should be available no later than facility start-up/commissioning. However, fast track programs can be 'front-end loaded' to meet immediate goals; i.e. only that information necessary to train personnel in preparation for systems start-up/commissioning can be developed first.
