The basic principle of forced air zoning is to allow one HVAC system to be controlled by multiple thermostats, heating and cooling a building in zones rather than as a whole. This makes homes and businesses more comfortable. When combined with setback thermostats, zone setback is possible, resulting in

significant energy savings.

User Guides - Honeywell Home Heating Controls

With a Temperature Zoning System from Honeywell, you won't be heating empty rooms or over-cooling one area in order to cool another. Zoning is a comfortable, energy-efficient way to enjoy the temperature you want in every room. Think of it as controlling your heating and cooling the same way you control your lights.
