Biophotonics and Coherent Systems in Biology: Beloussov, L ...

More specifically, he stated that biological systems are highly nonlinear; far away from thermal
equilibrium, and must be treated as thermodynamically open systems that constantly carry out work
to maintain this non-equilibrium; and macroscopic quantum systems that are able to produce
coherent oscillations 17, 32. These coherent oscillations have been observed to generate an
electromagnetic field that could enable long-range interactions between cells.
