Coping with caring for a child with type 1 diabetes ...

If your child is diagnosed with type 1 diabetes, they'll be looked after by a children's (paediatric) diabetes care team until they're around 18. The care team will help with the things needed to manage your child's type 1 diabetes, such as injecting insulin, testing blood glucose levels, and diet. They can give advice on school or nursery, and talk to your child's teachers and carers.

Type 1 diabetes -Type 1 diabetes in children - NHS

Diabetes is a serious condition where your blood glucose level is too high. There are two main types, Type 1 and Type 2. Most children in school will have Type 1 diabetes, which is a serious, lifelong condition where your blood glucose level is too high because your body can't make a hormone called insulin.

Looking after a child with diabetes in school | Diabetes UK

I know we're always posting about the children on here, but it would be interesting to see how we have all been affected by having a child with diabetes. Personally, I haven't experienced the anger and resentment of the condition that I'm told others have felt. Family members and friends have far worse problems.

How has your child's diabetes affected YOU? | Diabetes UK

When your child is diagnosed with diabetes, it's natural for grandparents, aunts and uncles, etc to be as upset and worried as you are. They may be in constant contact, asking for updates or how they can help – or they may leave you alone to concentrate on your child. Advice for dealing with extended family: Keep one person up to date.

Family relationships and Type 1 diabetes | Diabetes UK

This is what lots of medical professionals call transition. Everyone with Type 1 diabetes will have a medical team around them that will help them manage their diabetes as best they can. Moving clinics can be a nervous time for both you and your child. You'll both have to get used to a new team, a new system and as a parent or carer, you'll have to get used to your child having more control when it comes to their diabetes management.

diabetes management getting your child together with other children who have diabetes or spending time at a diabetes camp may help make your child feel less alone mental health and substance abuse Jun 20, 2020 Contributor By : Irving Wallace Ltd PDF ID d73039a4

Your Child Has Diabetes A Parents Guide For Managing ...

DKA can happen in a child with undiagnosed diabetes and is a medical emergency. As the body runs out of insulin for breaking down glucose, it starts to burn fat for energy instead. This leads to a buildup of acidic byproducts called ketones. 'DKA changes the pH of your blood and is a very dangerous condition,' notes Clement.

8 signs your child may have type 1 diabetes

Every year about 2,000 children are diagnosed with type 1 diabetes but a quarter of them will be seriously ill with DKA, a metabolic catastrophe before the diagnosis has been made. Diabetic Ketoacidosis (DKA) is the main cause of mortality and morbidity in children with type 1 diabetes. 10 children a year die from DKA in the UK.

Signs of diabetes in children and could my child have ...

Because children with diabetes have special needs, we recommend a "team approach" to your child's medical care. The team should include a physician or pediatrician who has experience treating children with diabetes, a nurse-educator, a dietician who can help with your child's special dietary considerations, and perhaps a social worker.

Your child has diabetes. - Free Online Library

Distance learning, stress eating junk food and lack of exercise have led to increases in Type 2 diabetes during the COVID-19

pandemic and it has some experts worried about the increase in children. Dr. Mauricio Flores is a pediatric endocrinologist and said the increase in kids is concerning because it reflects an increase of diabetes in the general population.
