So many books have been written about Titanic, I would have a difficult time

recommending this one. I almost gave it 2 stars but I did get through it and the action is quick paced, so I decided to be generous. This installment tells the story of Titanic's days at sea up to the collision with the iceberg.

Wow, "Collision Course" was nail-biting and the Titanic only hit the iceberg in the second-half of the book. With a murder attempt and Paddy trying to stay ahead of his pursuers, the action was intense.

The Titanic collided with an iceberg on the night of April 14, and 1,500 people died in the freezing waters as the ship met her watery grave.

Spectacular in many ways, it's a story that has spurred legends and still sends shivers down the spine a century later.
