Corpus Applications in Applied Linguistics *Bloomsbury Publishing*

Corpus linguistics is one of the most exciting approaches to studies in applied linguistics today. From its quantitative beginnings it has grown to become an essential aspect of research methodology in a range of fields, often combining with text analysis, CDA, pragmatics and organizational studies to reveal important new insights about how language works. This volume captures some of the most stimulating and significant developments in the field, including chapters on language teaching, institutional and professional discourse, English as an International Language, translation, forensics and media studies. As a result it goes beyond traditional, limited presentations of corpus work and shows how corpora inform a diverse and growing number of applied linguistic domains.

Perspectives on Language Learning Materials Development *Peter Lang*

Language learning materials development remains a surprisingly under-supported aspect of language teaching. This book constitutes a much-needed resource in the area, aiming to support and advance the craft of materials design. The volume offers a snapshot of the contemporary influences on language learning materials development from diverse perspectives around the globe. These influences include the demands of teaching ESOL in Britain and Ireland, the impact of Corpus Linguistics, the needs of young learners and of diverse worldwide audiences, the development of intercultural competence, as well as the integration of L2 acquisition research. Contributors to the volume are drawn from a broad range of teaching, research and materials development backgrounds. The book includes some chapters based on papers given at the MATSDA (Materials Development Association) 2008 conference.
