The Science of Getting Rich

A Christian Way to Create Success and Wealth *CreateSpace*
Transform your approach to money and create success. The formula for getting rich from a Christian perspective and the inspiration behind Rhonda Byrne's bestselling book and movie, *The Secret*. Wallace Wattles concisely shows how to use the power of thought and willpower on the way to getting rich. Use the Science of Getting Rich to: Think creatively, rather than competitively and how this is one of the keys to becoming wealthy Set yourself on the right course to obtaining wealth Get rich in a ethical way Use positive thinking to obtain your desires Succeed doing what you want to do Wattles shows that by focusing only on what your heart desires and believing

unconditionally that those things are yours to have, you connect to the Universe which gave you those desires in the first place and intends for you to fulfil them. His philosophy is at the essence of how we can attain real fulfilment and inner-peace doing what we love. This book will show you exactly how to control your thoughts so you can have the success you were created for. Science of getting Rich contents: The Right To Be Rich There is A Science of Getting Rich Is Opportunity Monopolized? The First Principle in The Science of Getting Rich Increasing Life How Riches Come to You Gratitude Thinking in the Certain Way How to Use the Will Further Use of the Will Acting in the Certain Way Efficient Action Getting into the Right Business The Impression of Increase The Advancing Man Some Cautions, and Concluding Observations Summary of the Science of Getting Rich Inspiring quotes from The Science of Getting Rich: "The very best thing you can do for the whole world is to make the most of yourself." "You must get rid of the thought of competition. You are to create, not to compete for what is already created." "Get rich; that is the best way you can help the poor." "Do all the work you can do, every day, and do each piece of work in a perfectly successful manner; put the power of success, and the purpose to get rich, into everything that you do" "Success in life is becoming what you want to be." "A man's way of doing things is the direct result of the way he thinks about things." "To get rich, you need only to use your will power upon yourself." Excerpt from chapter 1 - The Right to be Rich Whatever may be said in praise of poverty, the fact remains that it is not possible to live a really complete or successful life unless one is rich. No man can rise to his greatest possible height in talent or soul development unless

he has plenty of money; for to unfold the soul and to develop talent he must have many things to use, and he cannot have these things unless he has money to buy them with. A man develops in mind, soul, and body by making use of things, and society is so organized that man must have money in order to become the possessor of things; therefore, the basis of all advancement for man must be the science of getting rich. The object of all life is development; and everything that lives has an inalienable right to all the development it is capable of attaining. Man's right to life means his right to have the free and unrestricted use of all the things which may be necessary to his fullest mental, spiritual, and physical unfoldment; or, in other words, his right to be rich. In this book, I shall not speak of riches in a figurative way; to be really rich does not mean to be satisfied or contented with a little. No man ought to be satisfied with a little if he is capable of using and enjoying more.

The Science of Getting Rich was credited by Rhonda Byrne as one of the inspirations for her popular 2006 film and 2007 book The Secret. As Byrne explained it on the web site of Oprah Winfrey, "Something inside of me had

me turn the pages one by one, and I can still remember my tears hitting the pages as I was reading it. It gave me a glimpse of The Secret. It was like a flame inside of my heart. And with every day since, it's just become a raging fire of wanting to share all of this with the world." The book is included in personal development scholar Tom Butler-Bowdon's list of "50 Success Classics" in his 2004 book of that name. The book comes with another classic book The Science of Being Great, the guide to becoming a charismatic leader of men.

The Science of Getting Rich (Hindi) *QFORD Books*

It is the desire of God that you should get rich. He wants you to get rich because He can express Himself better through you if you have plenty of things to use in giving Him expression. He can live more in you if you have unlimited command of the means of life. The universe desires you to have everything you want to have. Nature is friendly to your plans. Everything is naturally for you. Make up your mind that this is true. God wants is that you

should make the most of yourself, for yourself, and for others. And you can help others more by making the most of yourself than in any other way. You can make the most of yourself only by getting rich, so it is right and praiseworthy that you should give your first and best thought to the work of acquiring wealth. The ownership of money and property comes as a result of doing things in a certain way. Those who do things in this certain way, whether on purpose or accidentally, get rich. Those who do not do things in this certain way, no matter how hard they work or how able they are, remain poor. It is a natural law that like causes always produce like effects. Therefore, any man or woman who learns to do things in this certain way will infallibly get rich. Rhonda Byrne, in her book, *The Secret*, tells how a 100-year-old book entered her life and changed it forever. Here is that book. Written in 1910, *The Science of Getting Rich* inspired Byrne to create her bestselling CD, and subsequently, to write her book. She has said that it gave me a glimpse of *The Secret*. It was like a flame inside of my heart. And with every day since, it's just become a raging fire of wanting to share all of this with the world. "There is a science of getting rich. It is an exact science, like algebra or arithmetic. There are certain laws which govern the process of acquiring riches. Once a person learns and obeys these laws, he will get rich with mathematical certainty." -- Wallace D. Wattles, *The Science of Getting Rich*)
