The First Cut Is the Deepest

Identifying and Healing "Cuts" That Shape Our Lives *Createspace Independent Publishing Platform*
This book is a detailed depiction of the "cuts" that people incur or will incur over the course of their lives, and how those "cuts" subsequently shape their lives. (Cuts are hurts, experiences, tragedies, and/or various pains incurred). Unfortunately, people will inevitably incur hurts and pains in life, which most are beyond their own control. One simply cannot control what happens to them at the hands of another. People hurt other people. It's not so much the hurt that causes the problem, but more so the effects of the hurt. Oftentimes, people ignore the hurt. They try to live their lives as if the hurt never occurred. Many are oblivious to their deep hurt because they've mastered the art of disguising the pain. The problem ensues when the severely wounded people interact with others, then they subsequently inflict others with the residual hurt that they've been harboring. Because of this, many fail to realize that they've been "cut" and are in need of healing. The purpose of this book is to aid in identifying and healing cuts from one's life (including their past, present, or possibly their future), as these cuts will affect one's life in some regard. Oftentimes, people need healing to recover from some trauma or tragedy that they've endured, yet they're too afraid to ask for help. Many internalize their feelings, never properly articulating their mental anguish, ultimately forsaking the need and opportunity to heal. It's the lack of healing that causes people to hurt others or live unhappy lives. This book was written to aid people with identifying their hurt, their need for healing, and ultimately helping them to heal and subsequently live their best lives.

Adult Children of Abusive Parents

Understanding for Adult Children That Suffered Under Abusive Parents *Createspace Independent Pub*

Adults who have suffered from an abusive childhood often have a difficult time functioning normally and forming meaningful relationships. They grew up in an environment that was considered abnormal by society's standards, so it becomes very hard for them to understand what exactly a normal relationship is. The mental and social effects of emotional abuse are perhaps the most complicated and prevalent. No matter what type of abuse a child suffers from, they will experience some kind of emotional or social consequence as a result. Once the child becomes an adult, these traits or thinking patterns have become second nature and it becomes far more difficult to change. A person's will is at the heart of their ability to change. 'Will' is what controls the human personality. It gives a person permission to express themselves. 'Will' must give them permission to change, in order for reprogramming of the mind to truly work. When a person takes control of their conditioning, they take back the keys to their own destiny. They no longer allow their traumatic past to control their lives or allow others to manipulate them. Recovering from childhood abuse is a long and trying process, but it is one that allows the adult child to finally break free from the fear and anger that once controlled their life. It is possible to lead a happy and fulfilling life if the individual is willing and able to work through their issues and face their fears. From understanding what abuse is and the many forms it takes to family dynamics and reconditioning of the mind, this book will walk the individual in need of healing towards positive restoration and renewal.

A mother's anguish compels her to examine beliefs about what comes after death and to explore ancient healing methods in Mexico, Brazil, and Bali. At its core a spiritual odyssey, The Sacred Wound is about creating meaning from life-shattering events--events which can utterly destroy us or serve as a call to extraordinary courage and growth.A life-shattering event is a modern day "sacred wound," a wounding so profound that it pierces the soul and penetrates the veils of who we are and what we think life is about. Like a mythological hero, we will emerge from the ordeal another person. As the author says, "For three years grief was my consort, it became my teacher." This inspiring and searingly honest book is about more than survival following the death of a loved one; it is about the gift in tragedy's other hand. It is about discovering the truth that love is the central experience of life

I Thought We'd Never Speak Again

The Road from Estrangement to Reconciliation *Harper Collins*

In her classic books The Courage to Heal and Allies in Healing, Laura Davis helped millions cope with the trauma of child sexual abuse. Her supportive guide Becoming the Parent You Want to Be taught parents to create a vision for their families. Now, in I Thought We'd Never Speak Again, she tackles another critical, emerging issue: reconciling relationships sundered by betrayal, anger, and misunderstanding. With her trademark clarity and compassion, Davis maps the reconciliation process through gripping firstperson stories of people who have reconciled under a wide variety of difficult circumstances. In these pages, parents reconcile with children, embittered siblings reconnect, estranged friends reunite, and war veterans and crime victims meet with their enemies. Davis weaves these powerful accounts with her own experiences reconciling with her mother after a long, painful estrangement. Making a crucial distinction between reconciliation and forgiveness, Davis explains how people can make peace in relationships without necessarily forgiving past hurts. Step by step, she clarifies the qualities needed for reconciliation-including maturity, discernment, determination, courage, communication, and compassion. To help readers gauge their own readiness, she includes a self-assessment entitled "Are You Ready for Reconciliation?" as well as a special section called "Ideas for Reflection and Discussion." On each page of this inspiring and instructive book, Laura Davis offers hope and help for reconciliation between individuals, and in the

larger human family, sharing essential keys for resolving troubled relationships and finding peace.

The Burning Light of Two Stars

A Mother-Daughter Story

This riveting memoir by Laura Davis, the author of The Courage to Heal, examines the endurance of mother-daughter love, how memory protects and betrays us, and the determination it takes to fulfill a promise when ghosts from the past come knocking. When she published The Courage to Heal in 1988, Laura Davis helped more than a million women work through the trauma of childhood sexual abuse. But her decision to go public with her grandfather's incest deepened an already painful estrangement with her mother, Temme. Over the next twenty years, from a safe distance of three thousand miles, Laura and Temme reconciled their volatile relationship and believed that their difficult past was behind them. But when Temme moves across the country to entrust her daughter with the rest of her life, she brings a faltering mind, a fierce need for independence, and the seeds of a second war between them. As the stresses of caregiving rekindle Laura's rage over past betrayals, they threaten her intention to finally love her mother "without reservation." Will she learn what it means to be truly openhearted before it's too late?
