Scientific Method Crossword Puzzle With Answer Key ...

The Scientific Method starts with a question, and background research is conducted to try to answer that question. If you want to find evidence for an answer or an answer itself then you construct a hypothesis and test that hypothesis in an experiment. If the experiment works and the data is analyzed you can either prove or disprove your

hypothesis.

Steps of the Scientific Method - Science Buddies

Scientists use the scientific method to answer questions. The scientific method is a series of steps. These steps help scientists (or even just people!) investigate a question. Often, students learn that the scientific method goes from step to step to step in a specific order, like so:

Scientific Method - CK12-Foundation

The process of observing, asking questions, and seeking answers through tests and experiments is not unique to any one field of science. In fact, the scientific method is applied broadly in science, across many different fields.
