Clinical Practice Guidelines by the Infectious Diseases ...

Abstract. Background/objective: Traditional sources cite seasonal patterns for common infectious diseases, often based on microbiologic data, but little is known about cyclical trends in clinically diagnosed infectious conditions in the emergency department (ED). We leveraged the publicly available Nationwide Emergency Department Sample database to measure the seasonality of the most common pediatric infectious diseases diagnosed in US EDs.

Seasonality of Common Pediatric Infectious Diseases

The novel coronavirus disease 2019 (COVID-19) outbreak has led to major reorganizations of emergency departments (EDs) to face the significant increase of patients with suspected severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). 1 The clinical description of hospitalized patients has been reported in the literature,^{2, 3, 4, 5, 6} but to our knowledge no study has focused on clinical and diagnostic findings in the ED setting.
