Literature, a body of written works. The name has traditionally been applied to those imaginative works of poetry and prose distinguished by the intentions of their authors and the perceived aesthetic excellence of their execution. It may be classified according to a variety of systems, including language and genre.

Literature - Encyclopedia Britannica | Britannica

World literature is used to refer to the total of the world's national literature and the circulation of works into the wider world beyond their country of origin. In the past, it primarily referred to the masterpieces of Western European literature; however, world literature today is increasingly seen in an international context. Now, readers have access to a wide range of global works in various translations. Many scholars assert that what makes a work considered world literature is its circul
