This the AF mode to use when back-button focusing, which is pressing the AE/AF button while the camera is set to manual auto-focus. AF Mode: Area. ... TCL-X100 tele converter lens.

How I configure my Fujifilm X100T for everything I ...

And it makes sense to be familiar with the manual focus options on your camera. Anyway, here is why I think the way that they implemented manual focus on the Fuji cameras are so good – using the Fuji X100s (B&H / Amazon) to explain: Accessing the Manual Focus mode works the way it does with most cameras – a slider switch on the side of the camera.

Fuji cameras manual focus mode - Tangents

Back focusing relies on the single point focus and not on the zone focus. And I noticed that the focusing system is far more accurate with the zone system. So I prefer to stay in a mode where I can use the zone focus, that is either single AF or continuous AF and not manual anymore. Single AF and continuous AF with zone focus are real quick.
