Outdoor Speaker Placement Guide

SETUP 1: Small deck or patio. Stereo outdoor speakers give you

good sound in a small area right outside the house. Figure out where you'll put them before you buy. For the best stereo effect, Tony recommends mounting left and right speakers about 10 feet apart. Don't try to cover a bigger space by moving them further apart.

Outdoor Speakers System Planning Guide - Crutchfield

A rule of thumb is to keep speakers at or below ten feet for any installation. How large is the space your speakers need to cover? The audio professionals who install sound systems generally suggest one pair of outdoor speakers to cover an area between 200 and 400 square feet. This makes the maximum

size patio or deck would be about 20 x 20 feet.

The Complete Placement Guide For Your Outdoor Speakers

Spacing Your Speakers. Generally, separate your speakers as much as possible but no more than 20 feet from one another. Try to point each speaker toward a central point where the optimal sound will converge. If you have a space of between 200 and 400 square feet, two speakers should suffice.

Outdoor acoustics 101: As outdoor audio setups are requested for more than a simple patio design, loudspeaker placement and use of subwoofers and amplification require more sophistication. William Kieltyka April 25, 2017. Every integrator has experienced the trials and tribulations of dealing with indoor acoustical problems caused by room dimensions and the acoustic properties of wall and ceiling materials.

The Best Speaker Placement for Great Outdoor Acoustics ...

Step 1, Set up the receiver indoors. Most outdoor speaker systems run off an existing indoor receiver. Since the

receiver is a sensitive piece of electronics, you almost always want to set the receiver up indoors. A multi-zone receiver allows you to have music playing outside while something else plays inside. Step 2, Install a volume control box outside. Make sure that it is in a sheltered location. You will be running the speaker wire from the receiver to the volume control box, and then ...

Noaudiophile.com has put together a speaker placement calculator for some of the most recommended speaker set-ups, including Cardas' golden ratio. Plug in the measurements of your listening room, and

Noaudiophile.com's calculator will map out where to place your speakers, giving you measurements for multiple configurations to try in your space.

Better Placement, Better Sound: Speaker Placement Guide ...

Outdoor stereo speakers are similar to indoor speakers, with two big differences: They can stand up to the elements. Many outdoor speakers are weatherproof, meaning they can withstand direct assaults of rain, sun, and cold. Other speakers are weather-resistant, so they require some protection from rain and ice. They come with mounting hardware. In the shipping box with the speaker, you'll find a

bracket or similar mounting hardware that attaches the speaker securely to the side of your house.
